- b. TDA shall provide a report to the Comptroller of Public Accounts and the Legislative Budget Board no later than the end of the second business week in March, June, and September (for the second, third, and fourth quarters) detailing the following information at both the strategy level and individual program activity level:

(4) The amount of expenditures for each of the cost recovery programs; and

(5) Any fee changes made during the fiscal year and the anticipated revenue impacts of those changes.

In the event that reported expenditures exceed revenues collected for any cost recovery program, the Legislative Budget Board may direct the Comptroller of Public Accounts to reduce the appropriation authority provided above to the affected strategy by an amount specified by the Legislative Budget Board.

c. Also, contingent on the generation of such revenue required above to fund TDA's cost recovery programs and related "other direct and indirect costs" TDA's "Number of Full-Time Equivalents" includes 178.2 FTEs in fiscal year 2022 and 178.2 FTEs in fiscal year 2023. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may reduce the FTE cap provided by this Act to reflect the number of FTEs funded by the amount of revenue expected to be available.

d. If cost recovery revenues collected in the first year of the biennium exceed the cost recovery requirements above, the excess revenue may be counted towards the cost recovery requirement in the second year of the biennium in addition to the revenues collected in the second year.

Department of Agriculture
Proposed Rider
Citrus Canker Quarantine Zones

Prepared by LBB Staff, 3/20/2023

Overview

Add a new rider in the bill pattern for the Department of Agriculture directing TDA to use \$673,072 in fiscal year 2024 and \$389,112 in fiscal year 2025 in General Revenue and 6.0 FTEs each fiscal year for the purpose of providing additional inspectors and equipment in citrus canker quarantine zones contingent upon the Department of Agriculture not shutting down the sale of all citrus plants in a quarantine zone. The rider would also prohibit appropriations from being used to implement a retail nursery customer registry related to citrus canker containment zones that collect the end-consumer's name or address information.

Required Action

(a) On page VI-12 of the Department of Agriculture bill pattern in Senate Bill 1, add the following new rider:

____. **Contingency Appropriation: Citrus Inspectors.**

(a) Amounts appropriated above to the Department of Agriculture in Strategy B.1.1, Plant Health and Seed Quality, include \$673,072 in fiscal year 2024 and \$389,112 in fiscal year 2025 from General Revenue and 6.0 FTEs each fiscal year for the purpose of inspecting citrus in the canker quarantine zones in Harris, Montgomery, Fort Bend, Brazoria, and Galveston counties. In the event that the Department terminates the sale of all citrus plants in the aforementioned zones, any remainder of unspent funds for this strategy shall be returned to the state treasury. The Department is not prohibited from enforcing the stop sale provisions in Texas Agriculture Code, Section 19.011, and a stop sale under this provision does not result in the agency having to return the funds appropriated herein.

(b) The Department of Agriculture shall use appropriations and FTEs in subsection (a) of this rider to provide additional inspectors and necessary equipment for citrus canker quarantine zones.
